# SAILUN

### ELECTRIC VEHICLE ALL-SEASON TIRE

ERANGE EV tires are designed and dedicated to help get the best performance out of your electric vehicle to help increase overall range on a single charge. ERANGE tires use proprietary Sailun Ecopoint3 liquid phase mixing technology to not only improve the EV driving experience, but also last longer, perform better, filter out road noise and reduce rolling resistance to avoid 'range anxiety' – with ERANGE, you're in charge. With over 37 sizes in 15-22", the ERANGE provides a wide range of market coverage in the electric vehicle segment.

#### **INCREASED LOAD-BEARING CAPACITY**

ERANGE EV tires feature increased loadbearing capacity to account for the extra weight of vehicle batteries while also utilizing a reinforced sidewall design for crisp handling and cornering compared to traditional tires.

#### **LONG-LASTING TIRE LIFE**

Manufactured with liquid phase mixing EcoPoint3 technology to deliver the right balance of long-lasting tire life without sacrificing grip or traction on various wet and dry road surfaces.

#### QUIET, COMFORT AND SAFE RIDE

ERANGE EV tires use proven 'SilentTread™' technology and a variable pitch sequence for a quiet, comfortable, and safe ride backed by proven lab and road testing to meet the highest of standards.

## ADVANCED TREAD PATTERNS AND COMPOUNDS

Built with advanced tread patterns and specially formulated rubber compounds to handle the instant torque of electric vehicles and deliver dynamic driving performance in various road conditions

Limited Tread Life Protection: 50,000 miles ELECTRIC VEHICLE & HYBRID Vehicles (Note: Half mileage for rear if different size than front) 60 months
